Abacavir tablet approved for pediatric patients, NOV:128
Alternative dosing regimen for atazanavir is approved by FDA, NOV:129
Atazanavir capsule label is updated for pediatric patients, MAY:59
Darunavir label has these changes, DEC:142
Estimated number of people newly-infected with HIV globally, 1990-2007, JAN:Sup3
FDA approves half-strength Kaletra, JAN:10
FDA approves label change for nevirapine, AUG:91
FDA approves generic Lamivudine, DEC:142
FDA approves pediatric efficacy supplement for didanosine capsules, NOV:129
FDA issues warning for nonoxynol-9 products, MAY:53
FDA grants accelerated approval for etravirine, MAR:34
FDA grants tentative approval to generic efavirenz tablets, FEB:21
FDA issues warning for nonoxynol-9 products, APR:44
FDA proposes to revise/update regulations regarding blood and plasma, FEB:23
FDA tentatively approves generic atazanavir, MAR:32
FDA's approval for generic lamivudine/zidovudine, JAN:12
FDA's final guidance on HIV resistance testing, JAN:10
FDA's tentative approval for generic Tenofovir, JAN:11
FDA: Tentative approval of generic nevirapine, JUL:80
Final rule is out on OTC vaginal contraceptives and spermicides,

FEB:22

Fosamprenavir label is updated, FEB:21
Generic abacavir and lamivudine combo approved, OCT:115
Generic didanosine approved by FDA, NOV:127
Generic emtricitabine approved by FDA, JUL:80
Generic lamivudine tentatively approved, MAR:33
Generic stavudine and efavirenz are tentatively approved by FDA, APR:46
Generic zidovudine oral solution approved, AUG:90
Large study suggests heart attack risk from use of abacavir or didanosine, MAY:58
Lopinavir/ritonavir label updated, AUG:92
New 600 mg tablet strength for darunavir's approval by FDA, APR:47
New tipranavir solution approved, AUG:92
Norvir label changes approved, OCT:115
Pediatric efficacy supplement for Retrovir syrup is approved by FDA, NOV:128
Pediatric formulation of lamivudine approved, MAR:32
Pediatric HIV infection guidelines are revised, OCT:114
Pediatric HIV infection guidelines for using ARTs are revised, APR:46
Roche Labs update insert for saquinavir, AUG:94
Tentative approval granted for lamivudine/stavudine, AUG:92
Tibotec issues Dear Health Care Professional Letter, APR:48
Updates made to Reyataz package insert, OCT:116
VITROS anti-HIV test is approved, MAY:58

Funding issues

Chart: FY 2009 Federal AIDS Budget, APR:39
Clinician front lines need more resources, SEP:99
Here are Medicare Part D's problems for HIV patients, NOV:123
Here are President-elect Barack Obama's HIV/AIDS priorities,

DEC:135
Medicare Part D has big impact on HIV treatment interruptions, NOV:121
President's HIV funding proposal is dead on arrival, HIV advocates say, APR:37
Will the future of HIV funding have a whole new look in 2009-10, DEC:133

HIV incidence and surveillance news

CDC answers questions about U.S. HIV numbers, OCT:117
CDC: Number living with HIV on steady rise, JUN:70
CDC renews plan to reduce new HIV infections, but with more modest goals, FEB:13
Here's what might work to reduce new HIV infection rate, FEB:15
Shocking new HIV infection data spur call for major changes, SEP:97

International HIV/AIDS epidemic

Expert provides information on technology transfer across oceans, JAN:Sup3
Global HIV/AIDS programs, APR:40
Global HIV vaccine trials face ethical challenges, FEB:20
HIV/AIDS epidemic key points, JAN:Sup2
HIV/AIDS prevalence levels off worldwide: revised estimates shave off 6 million infections, JAN:Sup1
International HIV/AIDS groups need to focus more on MSM, APR:Sup1
Online, "live" educational conferences teach overseas doctors about HIV treatment, APR:Sup3
PEPFAR funds not being used efficiently to prevent HIV epidemic, say critics, JAN:01
WHO HIV/AIDS guide to help universal access, Sep:106

Microbicides

New microbicide for HIV prevention

now in trials, JAN:06
Q&A: CEO explains how investigational microbicide VivaGel works, NOV:125

Minorities and HIV

CDC web series on HIV among blacks, JUL:81

Miscellaneous

AIDS advocacy group uses collaborative meetings to network, enhance services, DEC :137
Therapeutic trial of growth hormone releasing factor in HIV patients, APR:45
With long hours, less staff nurses fear needlesticks, AUG:94

Opportunistic infections

New OI prevention and treatment guidelines, Sep:100

Prevention programs

Brief internet prevention message has positive impact, JAN:03
Brief HIV prevention video achieves success on-line, FEB:18
CDC promotes brief provider intervention for educating patients about HIV, APR:41
Goals/objectives of the CDC HIV Prevention Plan, FEB:17
'Good bacteria' may aid in slowing HIV spread, JUN:67
'Healthy Relationships' empower HIV-infected women and encourage safer sex habits, MAY:52
Interventions targeting Latinos in Southeast need to use different strategies: Soccer leagues are good place to start, JAN:05
Research targets prevention for people with mental illness, MAR:27

Post-exposure prophylaxis

HIV PEP rarely warranted after mass

casualties, SEP:107

Psychosocial issues

Journal Review: mental illness, JUL:82
Special focus on HIV and stress, depression, JUL:79
Stigmatized: Global survey shows HIV pts still fear it, SEP:104

Research trends

Research project developed active, engaged consumer advisory board, MAY:55
Research sheds light on HIV antibody questions, OCT:119
Study estimates human life years lost to late entry into HIV care, MAR:29
U.S. Virgin Islands need more attention on HIV/AIDS research, APR:42

Screening and HIV tests

ASO works with homeless groups to provide AIDS services, testing, DEC:138
CA's streamlined HIV testing uncovering hidden infections, AUG:85
HIV screening of elderly can be cost-effective, JUL:83
New Jersey governor OKs law requiring HIV screening, FEB:19
NYC reports false positives spike with oral fluid tests, JUL:81
While other groups decline, HIV increasing in MSM, AUG:96

Vaccine update

Is it really time to give up on the hope of finding a preventative HIV vaccine? MAY:49
One step forward, two steps back, JUN:68
Researchers half HIV vaccine trial – What's the next step? JAN:08
